CHILDRENS' STORIES

Please consider volunteering for a children's story during the Month of March. Just let Mary Knight know if you have a story and which week you would like to give it. Gail will be unavailable the month of March.

MIDLAND MUSINGS

Midland Kindergarteners have been delving into the benefits of slime (mucus). Hagfish release large amounts of slime when an animal tries to eat it. Snails and slugs use slime to help them get around. Slime (mucus) helps trap germs and dust to protect humans. Members of the hippopotamus family emit a red colored slime so their skin doesn't sunburn. Our God is an awesome creator! *Developing passionate followers of Christ who love God and serve people.* www.midlandacademy.org
